

Data Analytics and Empirical Methods in Auditing

10th of December 2024

Workshop: 12:30 – 04:00 pm at Room S 68 (RW I)

Get-together: 04:00 pm in front of Room S 68 (RW I)

Participants will learn how empirical methods and data analytics are utilized in an auditing context to analyze data, provide audit evidence, and improve audit quality. This workshop also incorporates a practical, hands-on approach where participants will have the opportunity to create and assess their own analyses using empirical methods.

Speakers:

Philipp Kaschdan (pkaschdan@deloitte.de)

Sonja Schlosser (soschlosser@deloitte.de)
